## NATIONAL DEFENSE BUDGET ESTIMATES - FY 1993

This document is prepared and distributed as a convenient reference source for the National Defense budget estimates for FY 1993. It also provides selected current and constant dollar historical time series for National Defense, the total federal budget, and the U.S. economy.

# **STATISTICAL CHANGES IN THE PRESENTATION OF NATIONAL DEFENSE DATA**

## **RETIRED PAY/ACCRUAL**

For the years FY 1945-FY 1984, the DoD budget authority and outlay tables in this book show military retired pay on a cash basis. After FY 1984, both budget authority and outlays reflect only the accrual cost of military retirement. In all of the Office of Management and Budget (OMB) historical tables which show National Defense budget authority and outlays, the actual military retired pay accounts have been moved from the DoD Military Function (051) to the Income Security Function (600), and have been replaced with an imputed estimate for military retired pay accrual in Function (051).

## **ADJUSTMENTS FOR RETIRED PAY ACCRUAL**

The DoD Board of Actuaries updated the actuarial assumptions resulting in a reduction to the retired pay accrual normal cost percentage (NCP) for full-time and part-time personnel. The effect is a decrease of about \$2.5 billion annually beginning in FY 1990. This adjustment is treated as a price change and not as a programmatic change and the military pay deflators have been adjusted accordingly.

## **FEDERAL EMPLOYEES' RETIREMENT SYSTEM (FERS)**

The additional costs for retirement contributions due to enactment of the Federal Employees' Retirement System (FERS) Act of 1986, P.L. 99-335, are included as inflationary increases and the DoD deflators have been adjusted accordingly.

## **CHANGE IN ACCOUNT STRUCTURE**

In FY 1992, \$75 million was appropriated in Operation and Maintenance Navy for the National Science Foundation. Using the rules and definitions in the Budget Enforcement Act, OMB scored this appropriation as Domestic Discretionary spending in the General Science and Technology Function (251) rather than with all other DoD accounts in the DoD Military Function (051). Therefore, the FY 1992 Budget Authority reported by OMB in the DoD Military Function (051) differs from that reported in the tables in this book by this \$75 million and the outlays reported by OMB in the DoD Military Function (051) in FY 1992 and beyond differ by the spending that is derived from this account.

OMB reports the interest that is earned on the Defense Cooperation Account in the Deductions for Offsetting Receipts Function (908) and also on the DoD-Military lines in all tables which portray Budget Authority by Agency and Outlays by Agency in the historical summaries. This interest is not reflected in any of the tables in this book.

## CHANGES IN SCOREKEEPING

Rescissions: Before the amended FY 1989 budget was submitted, rescissions of prior year unobligated balances were reflected as adjustments only against TOA in the applicable program year. However, since then, both the Congressional Budget Office (CBO) and OMB score such rescissions as reductions to current year Budget Authority.

Reappropriations: Reappropriations previously were scored as new Budget Authority in the year of legislation. However, in presenting the amended FY 1989 budget, CBO and OMB directed scoring of reappropriations as Budget Authority in the first year of new availability [first year after original availability would lapse].

## GROSS NATIONAL PRODUCT and GROSS DOMESTIC PRODUCT

In December, the U. S. national income and product accounts (NIPAs) shifted emphasis from the Gross National Product (GNP) to the Gross Domestic Product (GDP). Both GNP and GDP measure output at market prices, but in a slightly different manner.

GNP measures the market value of all goods and services produced during a particular time period by U.S. individuals, businesses and government; it includes income earned by U.S. owned corporations overseas, by U.S. residents working abroad, but excludes income earned in the United States by residents of the rest of the world.

GDP measures the market value of all goods and services produced during a particular time period by individuals, businesses and government in the United States, whether they are U.S. or foreign citizens or American owned or foreign owned firms; it includes income earned by U.S. owned corporations overseas, by U.S. residents working abroad, but excludes income earned in the United States by non-U.S. residents.

Price indices in Chapter 5 are still based on the GNP, while NIPA data in Chapter 7 are now in terms of the GDP. The distinction between GNP and GDP is not very great for the United States because relatively few U.S. residents work abroad and U.S. earnings on foreign investments are about the same as foreign earnings on investments in the United States. Therefore, there is only a small change in the percentages presented this year based on the GDP and those presented in prior years that were computed from the GNP. Because complete time series are not yet available for all of the NIPA data, these series are only reported since FY 1959. Complete historical series will be included when the data are available.

## TABLE OF CONTENTS

	<u>Table No.</u>	<u>Pages</u>
<b>Chapter 1. National Defense -- An Overview</b>		
• Summary .....		1-3
• National Defense Budget Summary .....	1-1	4
• National Defense Long Range Forecast .....	1-2	5

• FY 1993 Outlay Transfers .....	8-10	177-182

## CHAPTER 1

### NATIONAL DEFENSE - AN OVERVIEW

This chapter provides an overview of the National Defense function of the federal budget which includes, in addition to the DoD budget, activities of other Federal Agencies that support our National Defense. Data are provided in three standard classifications: total obligational authority (TOA), budget authority (BA), and outlays. These classifications are defined below.

#### Definitions

**Budget Authority** -- BA is the authority to enter into obligations for payment (outlays) of Government funds. Most Defense BA is provided by Congress in the form of enacted appropriations. Congress may also reappropriate or rescind previously enacted appropriations. A reappropriation is the extension of availability of previously appropriated funds and is counted as new BA in the first year of extended availability. A rescission, or cancellation, of a previous appropriation is counted as a reduction to current BA in the year in which the funds are rescinded.

Budget authority may be affected by transfers. Transfers from one current year Defense account to another will reduce the BA of the losing account and increase the BA of the gaining account. Transfers of unobligated balances resulting from legislation which changes the purpose for which the balances are available are counted as reductions in current budget authority in the account from which the balances are transferred and as increases to current budget authority in the account to which the funds are transferred.

**Total Obligational Authority** -- TOA is a DoD financial term which expresses the value of the DIRECT Defense program for a fiscal year. It is the sum of (1) all budget authority granted by (or requested from) Congress; (2) amounts authorized to be credited to a specific fund and (3) unobligated balances from previous years which remain available for obligation.

Defense TOA differs from BA for several reasons, including:

(1) BA lapsing before obligations were incurred (decreasing TOA with no effect on BA);

(2) Application of shelf stock sales receipts to finance direct programs (increasing TOA with no effect on BA); and

(3) Proposed or enacted legislation transferring unobligated balances for which the purpose of the balances has changed (decreasing BA with no effect on TOA).

An additional difference is Net Offsetting Receipts, which are deducted from BA but have no effect on TOA. These are collections from the public that arise out of the business-type or market-oriented activities of the Government and are deposited in receipt accounts. Table 3-1 provides a reconciliation of TOA, BA, Appropriations and Authorizations requested in the FY 1993 DoD Budget.

Outlays -- There is a time lag between budgeting funds (congressional appropriation), signing contracts and placing orders (obligations), receiving goods or services and making payments (liquidating obligations). Payments, termed outlays, lag obligations due to the time required to render services or complete projects. Under full funding, Congress approves, in the year of the request, sufficient funds to complete most procurement and construction programs, even though these projects may require several years to complete. As a result of full funding, and the time required to produce and deliver goods and services, outlays during a fiscal year may be for payment of obligations incurred during prior years as well as the current year. Outlay data reflect these spending patterns and also the changes in program mix over time.

## BUDGET SUMMARY TABLES:

Table 1-1 presents the budget request for the National Defense Function in the terms defined previously. The National Defense Budget includes, in addition to the DoD budget, those activities of the Departments of Energy and Transportation, the Federal Emergency Management Agency, and the Selective Service System which support the National Defense Function. These activities are aggregated in Table 1-1 as DoE and other, and are shown in more detail in later tables. Data are provided in both current and constant FY 1993 dollars.

Table 1-2 provides the Long-Range forecast for the National Defense Function in both current and constant FY 1993 dollars.

Table 1-3 provides the National Defense BA estimate by Act in current dollars.

Table 1-4 provides the National Defense BA estimate by Act in constant FY 1993 dollars.

Table 1-5 provides the National Defense Outlays estimate by Act in current dollars.

Table 1-6 provides the National Defense Outlays estimate by Act in constant FY 1993 dollars.

Table 1-7 provides BA for all functions of the total Federal Budget for fiscal years 1991 through 1997. The functions are those used in the Budget of the United States, which is the source document for this table.

Table 1-8 provides Outlays for all functions of the total Federal Budget for fiscal years 1991 through 1997 in the same format as Table 1-7.

Table 1-9 provides a reconciliation, for fiscal years 1990 through 1993, from the Defense Appropriation and Military Construction Acts to National Defense BA and Outlays shown in the President's Budget request in both current and constant FY 1993 dollars.

### CHAPTER 3

#### LEGISLATIVE AUTHORIZATIONS

Almost all National Defense activities are within the legislative purview of the Armed Services Committees (ASC) of the House and Senate. Practically all National Defense budget authority is subject to the annual appropriation process. The Department of Defense accounts for 96% of the National Defense function in FY 1993, and the Defense Appropriation Act itself is 93% of the total National Defense request in FY 1993. The remainder of the estimates is scattered under several other headings and bills.

Table 3-1 provides a reconciliation between the FY 1993 DoD Authorization Request, Appropriation Request, Budget Authority, and Total Obligation Authority.

Table 3-2 presents personnel authorizations enacted for FY 1991 and FY 1992, as well as the FY 1993 budget request for DoD. Selected Reserves are shown as end strength in accordance with Congressional direction.

\* The FY 1991 actuals for active military reflect an increase of 17,059 end strength for the National Guardsmen and Reservists who were called to active duty pursuant to sections 672 and 673 of Title 10 U.S.C. in support of Operations Desert Shield/Desert Storm. The FY 1991 actuals for Selected Reserve reflect a corresponding reduction.

\*\* Excludes Coast Guard

## CHAPTER 4

### CHRONOLOGIES

Chronologies have assumed much greater importance because of the scorekeeping provisions of the Congressional Budget and Impoundment Act.

Table 4-1 provides a chronology of FY 1991 National Defense budget authority, beginning with the FY 1991 column of the FY 1990/FY 1991 biennial budget submitted to Congress in January 1989. The effect of the budget amendment in April 1989, as the other budget revisions in calendar year 1989, are shown to arrive at the budget estimate submitted to Congress in January 1990. Then congressional action, proposed rescissions and supplementals and other changes are shown, which gives the budget authority in the FY 1991 column of the FY 1992/FY 1993 request. Finally, the supplementals for Operation Desert Shield/Desert Storm, transfers from the Persian Gulf Regional Defense Fund and the impact of Contract Authority and other changes are shown to achieve the FY 1991 column of the budget submitted to Congress in January 1992.

Table 4-2 provides a chronology of FY 1992 National Defense budget authority, beginning with the FY 1992 column of the FY 1990/FY 1991 biennial budget submitted to Congress in January 1991. Then the impact of congressional action, Operation Desert Shield/Desert Storm supplementals and reappropriations, proposed rescissions, the environmental supplemental request and other changes are shown to arrive at the FY 1992 column of the FY 1993 budget submitted to Congress in January 1992.

## CHAPTER 5

### PAY RAISES, PRICE INCREASES, AND TREATMENT OF INFLATION

#### I. Definitions

##### 1. Inflation

Inflation is an increase in the general level of prices in the economy. Inflation does not mean that prices rise evenly or that all prices are rising. Some prices may be constant and others actually may be falling. Prices of some commodities rise faster than others because of differences in the magnitude and direction of changes in supply and demand in various markets. There are many different measures of inflation:

##### a. GNP Implicit Price Deflator

The Gross National Product (GNP) implicit price deflator, generally regarded as the best single measure of broad price movements in the economy, is the ratio of GNP in current prices to GNP in constant prices.

##### b. Consumer Price Index

The Consumer Price Index (CPI) measures the average change in the prices of a fixed list of goods and services purchased by families and individuals in urban areas across the country. Although it is often called the "Cost-of-Living Index" it measures only price changes, just one of several factors affecting living costs.

##### c. DoD Purchase Index

The DoD Purchase Index developed by ODoD(C) consists of outyear projections based upon fiscal guidance from OMB linked to actual DoD purchase price experience calculated by the Commerce Department's Bureau of Economic Analysis (BEA).

##### 2. Base Year

The Base Year is a point of reference representing a fixed price level, and is expressed as 1.00 (e.g., FY 1993 = 1.00). The base year for a set of index numbers can be changed to another year by dividing each number in the series by the index for the desired base year.

##### 3. Aggregate Price

The Aggregate Price is a weighted average of individual prices, where each price is weighted by an item's contribution to total expenditures. The aggregate price is thus a notional price developed to measure changes in inflation and is greatly

affected by the relative mix of the items considered, and the change of that mix over time.

#### 4. Annual Rate of Change in Prices

The **Annual Rate of Change** measures the year-to-year change in prices, computed by dividing one year's aggregate price by the preceding year's aggregate price.

#### 5. Index

An **Index** is a component of a time series which measures the change in prices from a fixed point in time, and is calculated by setting the base year equal to one, and then multiplying the index value of each year by one plus the annual rate of change of the next year.

#### 6. Current Dollars

An item or service is priced in **Current Dollars** if the prices contain all inflationary increases expected to occur in a program over the duration of the spendout of an appropriation. Current dollars are also called "then year" dollars, "budget" dollars or "fully inflated" dollars.

#### 7. Constant Dollars

**Constant Dollars** measure the value of purchased goods and services at price levels which are the same as the base or reference year. Constant dollars do not contain any adjustments for inflationary changes that have occurred or are forecast to occur outside the base year.

#### 8. Real Growth

**Real Program Growth** - the year-to-year change in constant dollars - is usually expressed as a percentage, and is computed by dividing the constant dollars for one year by the constant dollars of the previous year and subtracting one. Real growth always implies a relationship between two or more time periods.

#### 9. Spendout Rates

**Spendout Rates** (also called outlay or expenditure rates) are the expected cash flow for a given appropriation expressed as the percent expected to be spent in a given year. These rates are appropriation unique and range from two years in the pay accounts to as much as ten years in ship construction.

#### 10. Outlay Index

An **Outlay Index** measures the impact of changes in inflation on outlays; is used to convert outlays from current to constant dollars; is used to compute the amount of inflation to be added

to a base price; and is used to reprice estimates when inflation assumptions are revised. An index for outlays is calculated by compounding annual rates from any base year.

### 11. TOA Index

A TOA Index measures the impact of changes in inflation on TOA, given a specific fiscal year and phasing of work performed (or outlays), and is usually developed using the standard outlay rates for an appropriation. The TOA index measures the budgeted change of inflation from a fixed point.

## II. TABLES

Table 5-1 Provides inflation indices in base year FY 1993 for selected economy-wide measures from 1950-1997. These indices are provided for a comparison of DoD inflation with inflation in the general economy.

Table 5-2 Provides the pay and inflation assumptions used in the FY 1993 budget for DoD outlays. These rates are based on OMB guidance which reflects the change in the GNP deflator. The historical inflation rates for fuel are based on the change in the cost per gallon paid by the customer to the stock fund while the outyear forecasts of fuel increases are based on the Administration's estimate of RAC costs. Inflation estimates for all other purchases are in line with the GNP deflator.

Table 5-3 Provides pay and inflation assumptions used in the FY 1993 budget for DoD BA. The pay raises are annual rates and the same as Table 5-2. The purchases rates are based on the annual outlay rates in Table 5-2 converted to BA using the spendout profiles published in Table 5-11.

Table 5-4 Provides inflation indices in base year FY 1993 for each DoD appropriation title to be used in converting TOA from current to constant FY 1993 dollars.

Table 5-5 Provides inflation indices in base year FY 1993 to be used in converting pay and purchases TOA from current to constant FY 1993 dollars.

Table 5-6 Provides inflation indices in base year FY 1993 for each DoD appropriation title to be used in converting BA from current to constant FY 1993 dollars.

Table 5-7 Provides inflation indices in base year FY 1993 to be used in converting pay and purchases BA from current to constant FY 1993 dollars.

Table 5-8 Provides inflation indices in base year FY 1993 for each DoD appropriation title to be used in converting outlays from current to constant FY 1993 dollars.

Table 5-9 Provides inflation indices in base year FY 1993 to be used in converting pay and purchases outlays from current to constant FY 1993 dollars.

Table 5-10 Provides a chronology of inflation estimates since February 1975, and shows that the estimated inflation rate for a given year is revised many times before it becomes actual.

Table 5-11 Provides the outlay rates used in developing outyear inflation factors for estimating future costs of Defense purchases. These rates, which are derived from the rates used to develop the overall outlay estimates, do not allow for lapses in the accounts and only reflect the spending profile for Defense purchases, excluding fuel. The rates used to estimate total Defense outlay levels reflect spending patterns of the total account, including pay and fuel.

Table 5-12 Provides military and civilian [general schedule] pay increases from 1945 to the pay raises assumed in the FY 1993 budget request.

Table 5-13 Provides pay indices in base year FY 1993 for each component of civilian pay in DoD. Separate rates are maintained for general schedule [GS], wage board [WB], direct hire foreign national [DHFN], and indirect hire of foreign national [IHFN].

## CHAPTER 6

### TOA, B/A, AND OUTLAY TRENDS AND PROGRAM CHANGES

The tables provided in this chapter are the historical data series that are useful in analyzing trends in defense spending. TOA and BA data for FY 1990-FY 1992 and outlay data from FY 1990-FY 1997 reflect the costs associated with Operation Desert Shield/Desert Storm. The Data excluding Operation Desert Shield/Desert Storm cost are provided in Chapter 8.

Table 6-1 provides DoD TOA by appropriation title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-2 provides DoD TOA by pay, non-pay operations and investment from FY 1955-FY 1993 in both current and constant FY 1993 dollars. This format aggregates the DoD investment and non-pay operations costs on separate lines.

Table 6-3 provides DoD TOA by component from FY 1955-FY 1993 in both current and constant FY 1993 dollars. The Defense-wide total includes those items in the budget not identified to a specific component such as Retired Pay, Defense (until FY 1984); Contingencies, Defense; and Claims, Defense. Beginning in FY 1983, Family Housing costs are allocated to the Military Departments, and in FY 1985, the military retired pay costs were budgeted by the Services in their Military Personnel accounts.

Table 6-4 provides TOA by major force program from FY 1962-FY 1993 in current dollars.

Table 6-5 provides TOA by major force program from FY 1962-FY 1993 in constant FY 1993 dollars.

Table 6-6 provides appropriation account summaries in current dollars for TOA, BA and outlays.

Table 6-7 provides appropriation account summaries in constant FY 1993 dollars for TOA, BA and outlays.

Table 6-8 provides DoD Budget Authority by appropriation title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-9 provides DoD Budget Authority by pay, non-pay operations and investment from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-10 provides DoD Budget Authority by component from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-11 provides DoD Outlays by appropriation title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-12 provides DoD Outlays by pay, non-pay operations and investment from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-13 provides DoD Outlays by component from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-14 provides DoD Civilian pay in current dollars.

Table 6-15 provides DoD Civilian pay in constant FY 1993 dollars.

Table 6-16 provides Army TOA by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-17 provides Navy TOA by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-18 provides Air Force TOA by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-19 provides Army Budget Authority by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-20 provides Navy Budget Authority by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-21 provides Air Force Budget Authority by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-22 provides Army Outlays by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-23 provides Navy Outlays by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

Table 6-24 provides Air Force Outlays by title from FY 1955-FY 1993 in both current and constant FY 1993 dollars.

## CHAPTER 7

### DEFENSE, THE PUBLIC SECTOR, AND THE ECONOMY

The data for the National Defense Function shown in Tables 7-1 and 7-2 are consistent with the OMB treatment of military retirement in all years.

Table 7-1 provides Federal outlays from FY 1945-FY 1993, grouped by: National Defense; Veterans, Space and International Programs; Net Interest; and Social and Economic programs. The Social and Economic category includes the following functions: General Science and Technology (excluding space programs); Natural Resources and Environment; Energy; Agriculture; Commerce and Housing Credit; Transportation; Community and Regional Development; Education, Training, Employment and Social Services; Health; Income Security; Administration of Justice; General Government; Revenue Sharing and general purpose fiscal assistance.

Table 7-2 provides these data in constant FY 1987 prices.

Table 7-3 provides a breakdown of net U.S. public spending by federal, state, and local components from FY 1945-FY 1993. This excludes government enterprises (such as the postal service, utilities, and liquor stores) except for any support these activities receive from tax funds.

Table 7-4 provides these data in constant FY 1987 prices.

Table 7-5 provides Gross Domestic Product (GDP) for fiscal years 1960 through 1993 in current and constant FY 1987 dollars. The table also provides a breakdown of GDP for National Defense, Other Federal, State and Local, and All Other categories. Data and percentage distributions are on the National Income and Product Accounts (NIPA) basis.

Table 7-6 provides DoD military and civilian workforce data by component and DoD industry related employment for 1940-1993.

Table 7-7 provides U.S. employment and labor force data for FY 1940-FY 1993.

Table 7-8 is a master percentage table which provides DoD and national defense spending as a percentage of various economic and budgetary aggregates, including DoD and national defense outlays as a percentage of the Federal Budget and of net public spending; DoD employment as a percentage of public employment and the total labor force; and the defense share of GDP on a budget basis.

Air Force civil service employment is included in the Army prior to 1948 and identified separately thereafter.

Beginning in 1953, the civilian work force figures include both U.S. and foreign national direct hires and the foreign national indirect hire employees that support U.S. forces overseas.

Navy reserve personnel on active duty for Training and Administration of Reserves (TARS) are included in the active Navy prior to FY 1980 and in the Full-Time Guard and Reserve thereafter.

Active Duty Military includes 25,652 National Guard and Reservists activated in FY 1990 pursuant to section 673b, Title 10 U.S.C., to support Operation Desert Shield and 17,059 National Guard and Reservists activated in FY 1991 pursuant to sections 672 and 673, Title 10 U.S.C., to support Operation Desert Shield/Desert Storm.

Totals may not add due to rounding.

Totals may not add due to rounding.

The DoD direct hire (DH) civilian work force figures include both U.S. and foreign national direct hires. Foreign national indirect hire (FNIH) employees that support DoD forces overseas are not included.

The FY 1990 Active Duty Military includes 25,652 National Guardsmen and Reservists called to active duty pursuant to section 673b, Title 10 U.S.C., in support of Operation Desert Shield. The FY 1991 Active Duty Military includes 17,059 National Guardsmen and Reservists called to active duty pursuant to sections 672 and 673, Title 10 U.S.C., in support of Operation Desert Shield/Desert Storm.

## CHAPTER 8

### DESERT SHIELD/DESERT STORM RECONCILIATION

This chapter provides a reconciliation between the costs shown in all tables in this book and the level that would have been reported without operation Desert Shield/Desert Storm.

Table 8-1 provides the total costs of operation Desert Shield/Desert Storm by Service.

Table 8-2 provides the total costs of operation Desert Shield/Desert Storm by account.

Table 8-3 provides a breakdown of Allied Contributions.

Table 8-4 provides a track of FY 1990 Desert Shield/Desert Storm Budget Authority transfers.

Table 8-5 provides a track of FY 1990 Desert Shield/Desert Storm Outlay transfers.

Table 8-6 provides a track of FY 1991 Desert Shield/Desert Storm Budget Authority transfers.

Table 8-7 provides a track of FY 1991 Desert Shield/Desert Storm outlay transfers.

Table 8-8 provides a track of FY 1992 Desert Shield/Desert Storm Budget Authority transfers.

Table 8-9 provides a track of FY 1992 Desert Shield/Desert Storm outlay transfers.

Table 8-10 provides a track of FY 1993 Desert Shield/Desert Storm outlay transfers.

Table 8-1  
DESERT SHIELD/DESERT STORM COSTS by TITLE  
 (\$ Billions)

	<u>1990</u>	<u>1991</u>	<u>1992</u>	<u>TOTAL</u>
<b>DoD Costs:</b>				
Military Personnel	0.3	5.8	1.0	7.1
O & M	2.2	24.3	7.2	33.7
